## MIDWEST RECORD RECAP

*May 5, 2009*

**Chris Spector, Arts Reviewer**

### **QUIET JOY**

In the tradition of California cool jazz/big band singers of the 50's, Lee works her way around the classics with a California crew that still remembers Bud Shank and his crew and is out to remember the vibe as oppose to canonize it. Tasty, swinging set from a thrush that can swing, scat and make you feel good by just giving this a spin. Right in the pocket and a gas.
